

Hamburger Scenario Tournament

International Rules

September 2021

This tournament format has been created by the players of the Council of Pelargir group, from Hamburg, Germany. They have been playing it for years in a league system, with a decreasing point system for the players re-using the same deck.

More recently, the French community has played the Hamburger Scenario Tournament format in single event tournaments, and has elaborated these international rules, with a different (and appropriate) tournament point system.

I : THE RULES

I.1 General:

With the following annotations normal tournament rules apply:

- We play 2-deck games, one game lasts 90 minutes (the player who didn't start finishes his turn or gets a final turn). We play 10 minutes more than normally to have a better chance to win the scenarios. But if *The One Ring* is destroyed (hero success), or stored at Barad-dûr (minion success), the game ends immediately. *Nevertheless, the other player must make his corruption checks (to verify the scenario conditions at the end of the game).*
- You need 25 Marshalling Points to call the council. (Please check the normal tournament rules if you are not familiar with them!)
- You can have a 30 card sideboard deck.
- You may play only Wizard and Ringwraith scenarios (i.e. normal Wizard or Ringwraith decks).

I.2 Banned Cards:

You may not include the following cards in any of your decks :

- *Long Winter*
- *Storms of Ossë*
- *Foul Fumes*

(i.e. no hazard that may tap a site may be included!)

I.3 German Promos cards :

German Promos cards are tournament legal (in their original version, not the DC ones).

I.4 Rule Reminders :

* *Neither so Ancient* *Neither so Potent* gives items MP. (COE Erratum 32)

* Stored cards are not considered to be in play, except for uniqueness. (CRF)

For example, in The Rohirrim scenario (#11) *Red Arrow* and *Great Shield of Rohan* must be borne by characters and can not be stored to succeed the scenario.

I.5 Special rules :

* You may attempt to influence resources (items, allies) or characters controlled by a Wizard/Ringwraith. For items influence attempts, a Wizard/Ringwraith has a mind of 10.

* Any character may be brought into play under general or direct influence at his home site (even if your Wizard/Ringwraith is in play but not at the site), if you have another character present at that site. (*Dreamcard rule*)

* Characters and allies at a Haven heal from wounded to untapped during the untap phase. Characters and unique allies at their home site heal from wounded to untapped during the untap phase. (from a *Dreamcard rule*)

I.6 Optional rules : (it is up to the players to decide if these rules are used or not in the tournament)

* For the first round (only), you cannot play against a player with the same scenario (each player indicates his scenario on his tournament sheet).

* Before each game, each player makes a 2 dice-roll. The player with the highest roll can choose his Wizard/Ringwraith (so, he put 3 copies of his Avatar into his deck, showing them to his opponent) or he can choose to play first (or not), but before the character draft. If necessary, the other player must choose another Wizard/Ringwraith (he discards the copies of the same Avatar).

If the player with the highest roll had not chosen a Wizard/Ringwraith, the other player can do it. If the player with the highest roll has chosen a Wizard/Ringwraith, the other player can choose to play first (or not). (from a *Belgian variant*)

If this optional rule is in effect, the following procedure is used for the "specific" avatar cards : if a player does not play with his expected avatar, he can exchange up to 3 "specific" avatar cards for the same number of "specific" cards of his new avatar (he shows these cards to his opponent). Replacements cards must take place at the same place: deck or sideboard.

The "specific" avatar cards:

Alatar: *The Hunt*

Gandalf: *Hobbit-lore, Narya*

Pallando: *Eyes of Mandos*

Radagast: *Herb-lore*

Saruman: *First of the Order*

The Ringwraiths: all *Unleashed* cards

I.7 Alignments :

You are only allowed to play a Wizard or a Ringwraith deck. Fallen-Wizard decks and Balrogs decks are not allowed. You may only play a Ringwraith deck if your opponent also possesses a Ringwraith deck. In this case, each player makes a 2 dice-roll. The player with the highest result chooses to play Wizard against Wizard, or Ringwraith against Ringwraith. If you have a Ringwraith deck, you must also have a Wizard deck, that is to protect the beginners for playing against a Ringwraith deck.

Wizard decks are always playing against Wizards, Ringwraiths decks are always playing against Ringwraiths, so you can directly build your hazard deck for this. Only changing between one Wizard and one Ringwraith deck is allowed during a scenario tournament. You may not change your Wizard deck or your Ringwraith deck during the tournament.

I.8 Tournament formula :

For 4 or 5 players : it is a Round-robin tournament. Each player play once against each other player.

For 6 players or more : it is a Swiss System tournament. The number of rounds is dictated by the number of participants :

6 - 8 players : 3 rounds

9 - 16 players : 4 rounds

17 + players : 5 rounds

For the first round only, players are paired off randomly. For each round after the first round, each player is paired off with another player with the same (or the closest) total of tournament points. The same players can not play each other more than once.

I.9 Scoring :

The most important difference to a regular tournament is that you do not only get tournament points for marshalling points, but also for fulfilling the requirements of a certain scenario. You must choose a scenario among the list in II.1 (Wizard scenarios), and, if you want, another in II.3 (Ringwraith scenarios).

Scenario-Points :

If the player wins due to MPs :

- 7 TPs for a difficult scenario
- 6 TPs for a medium-hard scenario
- 5 TPs for an easy scenario

If the player loses due to MPs :

- 5 TPs for a difficult scenario
- 4 TPs for a medium-hard scenario
- 3 TPs for an easy scenario

If there is a tie :

- 6 TPs for a difficult scenario
- 5 TPs for a medium-hard scenario
- 4 TPs for an easy scenario

You can win several different scenarios with one same deck (there are some possible scenarios). In that case, you get always 7 tournament points.

MP-Rating-Points :

If a player has at least two times the number of MPs of his opponent, or destroy *The One Ring*, or store it at Barad-dûr (for a minion player), it is a decisive victory. Otherwise, it is a marginal victory.

- decisive victory : 4 TPs
- marginal victory : 3 TPs
- tie : 2 TPs
- marginal defeat : 1 TP
- decisive defeat : 0 TP
- a bye : 4 TPs (you have a bye if you are ready to play, but no opponent is available)
- drop : 0 TP

Scenario-Points and MP-Rating-Points are added up for the total points of a game.

1.10 Tournament Point Ties :

If several players have the same number of TPs at the end of the tournament, the following procedure is established :

1) *Head-to-Head results*. Tally the number of losses of each tied player from all games played with any other tied players. The player with the fewest total head-to-head wins the tie-breaker. You «lose» a game if you have fewer Tournament Points (Scenario Points + Marshalling Points) than your opponent.

2) *The greater number of Scenarios fulfilled (against all players)*. For each remaining tied players, the player with the greatest number of Scenarios fulfilled wins the tie-breaker.

3) *The greatest sum of opponent's scores*. For each remaining tied players, add up all of their opponent's Tournament Point totals. The player with the highest sum wins the tie-breaker.

II : THE SCENARIOS

For each scenario the following applies : to fulfill a scenario a player has to meet all deck building requirements during the whole game, and additionally **the winning requirements for a certain scenario at the end of the game.** You may only refer to the cards in your own deck to meet scenario requirements.
(DR = deck requirements, WR = winning requirements):
