

The Progressive Scenarios Hero Rules

before Lure of Meccg, February 2025

The Scenario Tournament format has been created by the players of the Council of Pelargir group, from Hamburg, Germany. They have been playing it for years in a league system, with a decreasing point system for the players re-using the same deck.

The French community has played the Scenario Tournament format in single event tournaments, and has elaborated new rules, with a different tournament point system. These progressive scenario rules are an improvement, with 3 success levels for each scenario.

I : THE RULES

I.1 General:

With the following annotations normal tournament rules apply:

- We play 2-deck games, one game lasts **80 minutes** (the player who didn't start finishes his turn or gets a final turn). But if *The One Ring* is destroyed (hero success), the game ends immediately. *Nevertheless, the other player must make his corruption checks (to verify the scenario conditions at the end of the game).*
- You need 25 Marshalling Points to call the council. (Please check the normal tournament rules if you are not familiar with them!)
- You can have a 30 card sideboard deck.
- You may play only Wizard scenarios (i.e. normal Wizard decks).

I.2 Banned Cards:

You may not include the following cards in any of your decks :

- *Long Winter*
- *Storms of Ossë*
- *Foul Fumes*

(i.e. no hazard that may tap a site may be included!)

I.3 German Promos cards:

German Promos cards are tournament legal (in their original version, not the DC ones).

I.4 Rule Reminders:

* *Neither so Ancient Neither so Potent* gives items MP. (COE Erratum 32)

* Stored cards are not considered to be in play, except for uniqueness. (CRF)

For example, in The Rohirrim scenario (#11) *Red Arrow* and *Great Shield of Rohan* must be borne by characters and can not be stored to succeed the scenario.

I.5 Special rules:

* You may attempt to influence resources (items, allies) or characters controlled by a Wizard. For items influence attempts, a Wizard has a mind of 10.

* Any character may be brought into play under general or direct influence at his home site (even if your Wizard is in play but not at the site), if you have another character present at that site. (*Dreamcard rule*)

* Characters and allies at a Haven heal from wounded to untapped during the untap phase. Characters and unique allies at their home site heal from wounded to untapped during the untap phase. (*from a Dreamcard rule*)

* During your organization phase :

If your Avatar is in play, and if you have at least 5 cards in your play deck, you can discard a copy of your Avatar from your hand to bring one resource card or one character card from your sideboard into your play deck (shuffle your play deck).

I.6 Optional rules: (it is up to the players to decide if these rules are used or not in the tournament)

* For the first round (only), you cannot play against a player with the same scenario (each player indicates his scenario on his tournament sheet).

* At the beginning of each game, before the character draft, each player makes a 2 dice-roll.

The player with the highest result (re-roll in case of a tie) chooses immediately between these two options:

Option 1: select a Wizard (or declare playing without a Wizard)

Option 2: choose to play first (or not)

The other option is automatically assigned to the player with the lowest result.

The player with **Option 1** selects a Wizard and add three copies of this avatar to his play deck (showing them to his opponent). He will not be allowed to play a copy of another Wizard during this game. If he declares playing without a Wizard, he will be not allowed to play any copy of any Wizard during this game.

When your opponent chooses a Wizard, you must put all the copies of this same avatar from your deck or your sideboard in your "out of play reserve" and you can add three copies of another Wizard from your reserve to your deck or your sideboard.

See below for the procedure for the "specific" avatar cards.

The character draft takes place as usual (5 characters maximum, 20 maximum mind).

Then, each player draws 8 cards from his play deck. Mulligan can occur (rule 1.8).

And then, at this stage, the other player can activate the **Option 2** : choose to play first (or not).

(from a Belgian variant)

If this optional rule is in effect, the following procedure is used for the "specific" avatar cards : if a player does not play with his expected avatar, he can exchange up to 3 "specific" avatar cards for the same number of "specific" cards of his new avatar (he shows these cards to his opponent). Replacements cards must take place at the same place: deck or sideboard.

The "specific" avatar cards:

Alatar: *The Hunt*

Gandalf: *Hobbit-lore, Narya*

Pallando: *Eyes of Mandos*
Radagast: *Herb-lore*
Saruman: *First of the Order*

Extra cards (replacement Wizard cards, replacement specific avatar cards) come from your "out of play reserve" (not from your sideboard).

I.7 Alignment:

You are only allowed to play a Wizard deck. Ringwraith decks, Fallen-Wizard decks and Balrogs decks are not allowed.

I.8 Mulligan:

If you have no resource card in your starting hand that normally gives any MP(s), you can show your hand to your opponent, and then shuffle this starting hand into your play deck and draw a new starting hand. You can only do this once.

I.9 Tournament formula:

For 4 or 5 players : it is a Round-robin tournament. Each player play once against each other player.

For 6 players or more : it is a Swiss System tournament. The number of rounds is dictated by the number of participants :

- 6 - 8 players : 3 rounds
- 9 - 16 players : 4 rounds
- 17 + players : 5 rounds

For the first round only, players are paired off randomly. For each round after the first round, each player is paired off with another player with the same (or the closest) total of tournament points. The same players can not play each other more than once.

I.10 Scoring

The most important difference to a regular tournament is that you do not only get tournament points for marshalling points, but also for fulfilling the requirements of a certain scenario. You must choose a scenario among the list in II (Wizard scenarios)

Scenario-Points :

- 7 TPs for a difficult scenario
- 5 TPs for a medium-hard scenario
- 3 TPs for an easy scenario

You can win several different scenarios with one same deck (there are some possible scenarios). In that case, you get 7 tournament points. If one of these scenarios is medium, 8 tournament points ; if one of these scenarios is difficult, 9 tournament points.

Malus Points:

If both opponents succeeds a scenario : - 1 TP for each player

Victory-Points:

If a player has at least two times the number of MPs of his opponent, or destroy *The One Ring*, it is a decisive victory. Otherwise, it is a marginal victory.

- decisive victory : 4 TPs
- marginal victory : 3 TPs
- tie : 2 TPs
- marginal defeat : 1 TP
- decisive defeat : 0 TP
- a bye : 6 TPs for the first round, 5TPs for the second round, 4TPs for the third round, 3TPs for the fourth round, 2 TPs for a fifth round. You have a bye if you are present at the tournament room, ready to play, but no opponent is available. Only one player per round can benefit from a bye. A player can only get one bye in a tournament
- drop : 0 TP

Scenario-Points, Malus Points and Victory-Points are added up for the total points of a game.

1.11 Tournament Point Ties :

If several players have the same number of TPs at the end of the tournament, the following procedure is established :

- 1) *Head-to-Head results*. Tally the number of losses of each tied player from all games played with any other tied players. The player with the fewest total head-to-head wins the tie-breaker. You «lose» a game if you have fewer Tournament Points (Scenario Points + Victory Points) than your opponent.
- 2) *The greater number of Scenarios fulfilled (against all players)*. For each remaining tied players, the player with the greatest number of difficult scenarios fulfilled wins the tie-breaker. Then, the player with the greatest number of medium scenarios. Then, the player with the greatest number of easy scenarios.
- 3) *The greatest sum of opponent's scores*. For each remaining tied players, add up all of their opponent's Tournament Point totals. The player with the highest sum wins the tie-breaker.

II: THE WIZARD SCENARIOS

For each scenario the following applies: to fulfill a scenario a player has to meet all deck building requirements during the whole game, and additionally **the winning requirements for a certain scenario at the end of the game.** You may only refer to the cards in your own deck to meet scenario requirements.

(DR = deck requirements, WR = winning requirements):

DR: The starting company may only contain the following characters: *Bilbo*, Dwarves with home site: Blue Mountain Dwarf-hold.

WR:

Remark and Ruling : «Aragorn or Strider is played as the first character » do not mean that he must be played successfully.
